

CHEM 131
OPTIONAL Exam 3 2nd Chance Opportunity

Name(s) _____
Due at the start of class Friday, November 15

As an opportunity to earn some points back on Exam 3, you may complete the following:

1. Print out a blank copy of the exam from Dr. Lamp's website
2. Work with no more than **two other students** to complete the exam. You can use your book, notes, electronic resources, but may not seek out help from anyone else, including Dr. Lamp or anyone at the CCC or AXE tutoring.

The purpose of this opportunity is for you to increase your understanding of the exam material! You will need this understanding for the final exam and further work in chemistry.

3. Turn in your completed exam, with this signed cover page attached at the beginning of class on Friday, November 15. **Only one exam and cover page is to be submitted for the group.**

This signed statement must accompany the completed exam or no credit will be given. By signing below, you certify that you completed the exam in accordance with these rules. No credit will be given to unsigned papers or exams completed unethically.

Signature _____ Date _____

I will grade the submitted exams and your exam 3 score will be changed by either adding the larger of:

- One half of the difference between your original exam score and the score on the second chance exam, to a maximum of 20 points
- 10 points

Each student who works in a group will get the same score on the second chance exam, so their exam 3 adjustments will be different if their exam 3 scores were different.
